From a photogenic Rum Swizzle to the best food finds on the island, follow us for the inside scoop on Bermuda's incredible food scene

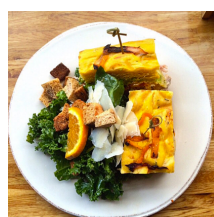

biteofbermuda.com is a food website started by Bermuda based food loving friends. Launched in May 2015, our site quickly grew to having the fastest growing social media presence focused on the Bermuda food scene. We are a restaurant review site providing dining advice based on a 'regular' person's point of view and our goal is to let you know what we think is the best place in Bermuda for:

- Eating like a local (where & what Bermudians are eating)
- Romantic getaways and Secret Rendezvous
- A night out with your girls, guys or coworkers
- And more...

Our reviews focus on the atmosphere, the service, the people and personalities and most importantly, the meal. Ultimately we want to be the go-to food advice/entertainment column for visitors and diners in Bermuda
